

I, John Watt of Fluoride Free WA Inc., PO Box 8009, Subiaco East, WA 6008, treasurer@fluoridefreewa.org, in the State of Western Australia, am the promoter of this petition which contains \_\_\_\_\_ signatures.

**PETITION IN RELATION TO EVIDENCE OF INJURY TO UNBORN CHILDREN**

To the President and Members of the Legislative Council of the Parliament of Western Australia in Parliament assembled.

We the undersigned are requesting the Minister of Health to –

1. direct the Secretary of Health to cause WA Health to publish notices warning each woman who is, or may become, pregnant to minimize her fluoride intake from all sources (including tea) in order to manage the risk of reduced cognitive ability in the child.
2. request the Governor to make regulations requiring a water supply authority, on each water supply invoice it issues, prominently to print the average concentration and the maximum concentration of fluoride contained in the water to which the invoice relates.

We therefore ask the Legislative Council to recommend the above actions to the Minister of Health in light of recent, published research, *Bashash et al September 2017* (Environmental Health Perspectives 2017 Sep; 125(9): 097017) and *Green et al August 2019* (JAMA Pediatrics 2019;173(10):940-948), giving evidence of neurotoxic damage to a human foetus, via the mother’s ingestion of fluoride during pregnancy.

And your petitioners as in duty bound, will ever pray.
